Odd numbers

Even numbers

Multiples of 10

■ Ways to use your 100 square:

- Count forwards and backwards from any number
- Find all the multiples of 2, 5, or 10 — colour them in!
- Cover a number with a counter — can your child work out what's hiding?
- Explore number patterns — what do you notice about the columns?
- Use as a support for addition and subtraction — count on or back
