Open Number Lines

Open number line — write your start and end numbers at each end

Completely blank — place any numbers you choose, anywhere on the line

The image displays four identical vertical open number lines arranged horizontally. Each line is a dark blue vertical line with arrows at both the top and bottom. There are 11 horizontal tick marks on each line, positioned at regular intervals. The lines are intended for students to write their own start and end numbers at the arrows and place any other numbers they choose along the tick marks.
